

SUHRCO Raises More Than \$5,000 for the American Lung Association

SUHRCO manages a diverse portfolio of commercial and multifamily residential properties in the Puget Sound region. Established in 1973, the company employs more than 300 experienced professionals dedicated to meeting the management, leasing and brokerage needs of building owners, tenants, and condominium/homeowner association boards and owners.

October 2010

Three days, 160-miles through three of the San Juan Islands and \$5,185 for the American Lung Association – that is the final tally for our team of SUHRCO employees and supporters who completed the Trek Tri-Island in September. The SUHRCO team included six bike riders and two volunteers who managed a rest stop sponsored by McLeod Construction. The team unanimously declared that the ride “was a blast!”

We are grateful for the tremendous support received from coworkers, friends, families, and corporate sponsors including: Maintco, Rooftech Services, McLeod Construction, Cobra Construction, Gastineau Communications, Frohriech Insurance, Restorco, Davey Tree, Baldwin Insurance Group, AAA Fire & Safety, Willard’s Pest Control, The Coe Law Group and Q’Wallace.

In total, nearly 200 riders and volunteers raised over \$90,000 for the American Lung Association® whose mission is to improve lung health through research, education, community service, and advocacy. Congratulations Team SUHRCO!
